

WE SERIES

WE Series is serrated, single gasket ceiling cover is ideal for interior applications where minimal visual impact is preferred and where hygiene is critical. This series is also designed to match select flush wall cover systems. Gasket profiles vary based on joint size to offer flexibility in installation and field construction.

ADVANTAGES

- Single gasket allows for minimal visual impact
- Hygienic
- Flat profile
- Gasket edges lock into aluminum retainers to prevent hairline gaps
- Corresponding wall covers for seamless sightline

In addition to its clean aesthetic and functional performance, the WE Series provides long-term durability in demanding environments. The system is engineered to accommodate building movement while maintaining a consistent, refined appearance across ceiling transitions. Its streamlined form makes it suitable for healthcare facilities, laboratories, commercial spaces, and public buildings, where both performance and design continuity are essential.

MODEL	JOINT WIDTH	HEIGHT OPTIONS	SIGHTLINE	TOTAL MOVEMENT
